

Pag. 34, EXAMPLE:

- il testo

“Giovanni plays and studies. He studies, finds a job, and reads. Luisa studies and sings. Chi is sensitive and has many friends. Chi reads is sensitive.”

leggasi

“Giovanni plays and studies. Whoever studies, finds a job and reads. Luisa studies and plays an instrument. Whoever plays an instrument is sensitive and has many friends. Whoever reads is sensitive.”

- nella tabella, ai punti 3 e 4, leggasi:

n	Natural language	Symbolic language
1		
2		
3	Luisa studies and plays an instrument	$l \in S \quad l \in I$
4	Whoever plays an instrument is sensitive and has many friends	$x \in I \Rightarrow x \in E, x \in F$

Pag. 36, ultimo capoverso

- il testo

Answer E is not deducible since it is true that “Who plays has many friends,” but there is no available assertion establishing that Giovanni plays.

leggasi

Answer E is not deducible since it is true that “Who plays an instrument has many friends,” but there is no available assertion establishing that Giovanni plays an instrument.
